## **About us: Our team in Daventry:**

We are currently recruiting Senior Social Workers to work in our Support and Safeguarding Teams in Daventry, Northamptonshire. Daventry is a market town and civil parish in the West Northamptonshire area. It's a beautiful location, from which we support families across a fairly rural patch of Northamptonshire covering Daventry and the surrounding villages and market towns.

We have a cohesive team and a very supportive working environment, where everyone pitches in. We also offer superb mentoring and development opportunities. The Team uses the Signs of Safety embedded model and has Practice Champions within it. Our Daventry site benefits from large meeting and interview rooms that are suitable for families to meet and also offers free parking.

## **About the role:**

The role is responsible for providing practical and social work support for children, young people and families.

This involves holding a more complex caseload. This will include undertaking assessments, visiting children and their families, carrying out interventions, reviewing the work undertaken, direct work with children, young people and families and any other work identified as necessary.

All this must be based on best evidence and good practice, privileging the best interests of children and young people. The post holder could be expected to offer mentoring, work-shadowing/work experience opportunities and study towards the Practice Educator qualification and post qualifying modules.

## **About you:**

As a Senior Social Worker you will have knowledge of the main issues in relation to your own client group. You will have awareness of the main legislative framework within which the role operates and knowledge of the range of services which are available to children and families and of the organisational framework within which they are provided.

Ideally you will have gained extensive post qualification experience of children and families social work within a statutory or voluntary organisation and will have proven
